

DCM meeting Report

ACM Meeting Notes 2/15/2025

Discussion on types of motions that can be made to discuss the upcoming Fall Assembly / Mini PRASSA.

Discussed if we should consider changing from three days to two days at the Mini PRASSA assembly.

Changing the pre-conference assembly from two days to three days.

I made a motion to the group to borrowing the interpretation equipment for D47 Agenda Items workshop on March 22 and for D34 Unity Day event on March 23.

Had a discussion on the twelve-step inventory to be submitted to the general conference as an agenda topic. The item has been brought to previous ACM meetings and was discussed at the Winter Assembly. The motion is to approve a motion for area support.

Jenn- has been a part of a groups agenda item to move forward for a letter of support the agenda item that goes to trustees. When an agenda item has the support of an area it has more weight than an individual agenda item without area support. The item was brought up a few years ago and was not moved forward because the Trustees were developing a big plain language book that can be used as the 12-step guide inventory. If brought back to the trustees, they would like to know if there has been any new information added since it was last submitted and is there a need to have this added to the agenda items.

Vicky- There are many ways that the steps are done with sponsors and may be an issue with other AA members. There is already a process that aa members do when working the steps.

Motioned failed

Districts are discussing preliminary agenda items and are sending DCMs to PRASSA in Alaska. Many are also planning on attending the pre-conference in Gazelle.

Archives has officially moved to a new location to the Florin Rd facility. The new facility is much more conveniently located and insurance has been transferred the policy will be updated with the underwriter agent.

Open position for the

Area members will be publishing position descriptions for members who want to join area 7.
