will discuss again in August to see if we want to have a vote in September before the deadline to submit.

Spending Plan Discussion- The finance committee increased all allocations and expenditures by 4% due to inflation. The committee will host two workshops in the coming months, and all are invited to attend. At the end of the spending plan the funding has increased much from last month and what was spent less this year was the PRASSA spending was less this year. Contributions to the Area are down about 5% this year so far as many districts and groups have become upset from the General Service Conference and the issue of the Big Book changes that were made at the conference.
